PROJECTS

AI integration using chatgpt API (ChatBot)

Apr 2024 - May 2024

<https://chat-bot-ai-ruby.vercel.app/>

Project: ChatGPT AI Chatbot Clone (Next.js & ChatGPT API)

Description: Developed a cutting-edge chatbot clone of OpenAI's ChatGPT using Next.js and the official ChatGPT API, demonstrating expertise in API management. Successfully leveraged the ChatGPT API to replicate the original chatbot's advanced conversational capabilities, including contextual understanding, question answering, and text generation, and integrated it with a high-performance Next.js frontend.

Skills showcased: Next.js, React, JavaScript, Chatbot Development, API Management, API Integration, Conversational AI, Contextual Understanding, Question Answering, Text Generation.

AI integration using Google Gemini API

Apr 2024 - May 2024

<https://gemini-clone-bay.vercel.app/>

Project: Gemini AI Chatbot Clone (React JS & Gemini API)

Description: Built a highly advanced chatbot clone of Gemini's AI-powered customer support platform using React JS and the official Gemini AI API, demonstrating expertise in API integration. Successfully replicated the original chatbot's functionality, including intent recognition, entity extraction, and response generation, and integrated it with a user-friendly React frontend.

Skills showcased: React JS, JavaScript, Chatbot Development, API Integration, Response Generation, User Experience (UX).

My portfolio website

Apr 2024 - Present

<https://portfolio-website-using-next-js-theta.vercel.app/>

Discover the intersection of creativity and functionality in my portfolio. As a passionate front-end web developer, I craft immersive digital experiences that captivate and engage. Explore my work and witness the seamless fusion of design and code.

YouTube home page clone

Apr 2024 - Present

<https://youtube-home-page-clone-react-js.vercel.app/>

YouTube homepage clone built with ReactJS, Tailwind, and TypeScript! Experience the familiar layout and functionalities of YouTube's homepage, recreated with modern web technologies.

This project serves as a demonstration of my proficiency in ReactJS, TailwindCSS, and TypeScript, showcasing the ability to replicate complex UIs with clean code
